One Platform Simple & Secure

- Collect, Store, Manage, Audit
- Future-Proof Compliance
- Effortless Data Sharing

Upload once,
share many

How My Databoss Works For You

> Secure Client Onboarding & Communication

- Instantly verify clients with advanced digital identity checks.
- Send an email or letter inviting them to join My Databoss.
- Clients create an account and shares their unique My Databoss ID.

> Securely Request & Receive Sensitive Information

- Use their My Databoss ID to send requests for any data including documents, ID verification, financial data, and e-signed contracts.
- Clients submit everything securely via mobile—no risk, no hassle.

> Managing Client Data & Compliance

- All interactions are automatically logged within the platform.
- Keep notes on meetings, upload files, and track requests—all encrypted and secure.

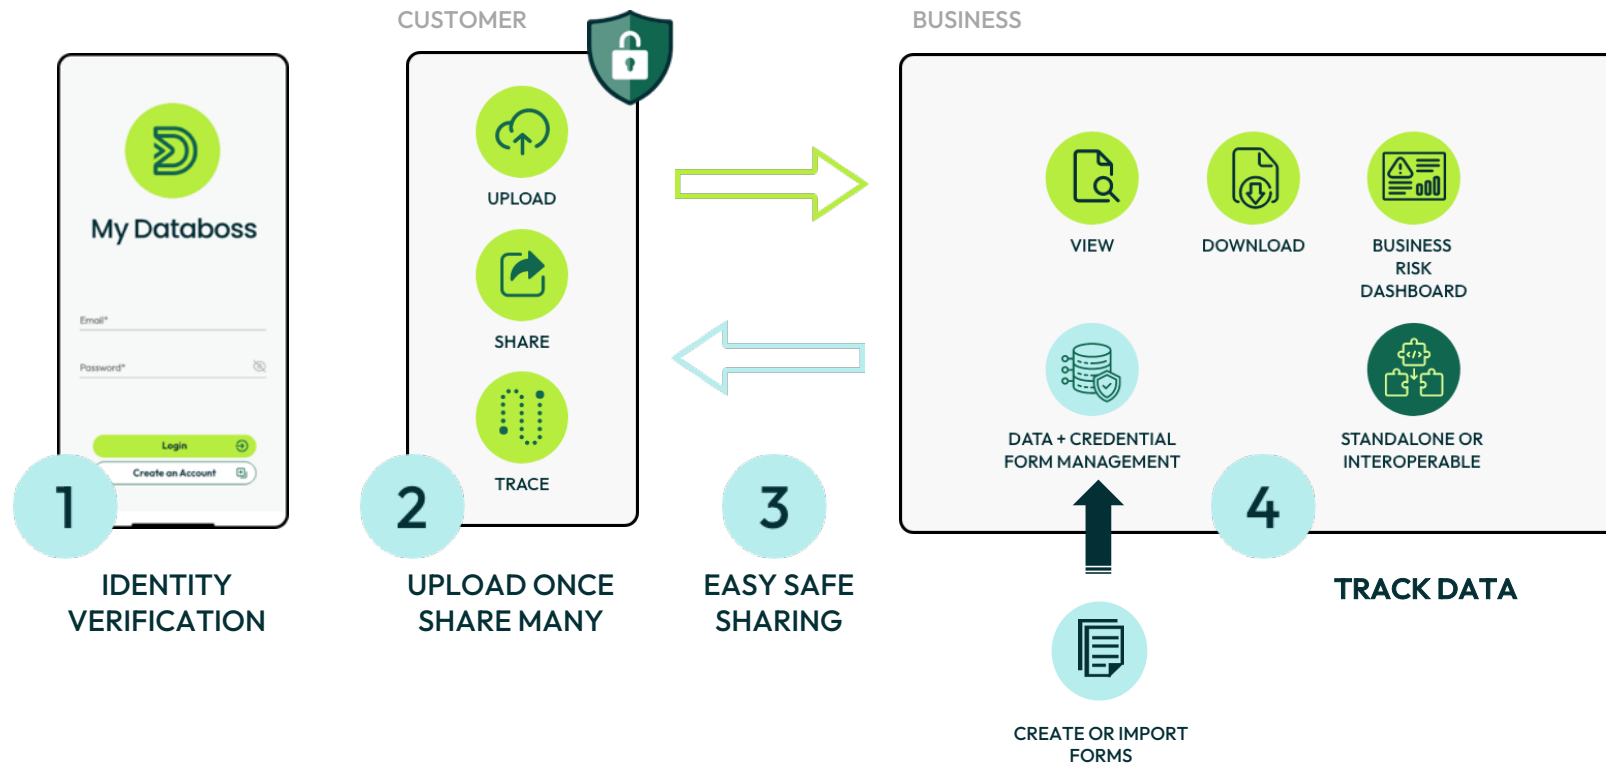

> Automated Compliance & Efficiency

- Built-in workflows ensure compliance with regulations.
- Cuts manual processes so you can focus on legal work.
